METHOD AND SYSTEM FOR USE OF A POINTING DEVICE WITH

MOVING IMAGES

#### PROPOSED INTERVIEW TOPICS

**Examiner Rekstad** United States Patent and Trademark Office 571-272-7338 phone 571-273-7338 and 517-273-8300 facsimile

## Examiner Rekstad:

Please find below a draft claim I would like to discuss in our telephone interview, tentatively scheduled for Wednesday, May 10. Myself, an attorney of record, and Rachel Bentov, a representative of the assignces, will attend.

Applicants propose the following draft claim (note the following proposed amendment is a draft proposal only, for discussion purposes, and does not create any prosecution history estoppel):

APPLICANTS:

Skala

SERIAL NO.:

10/004,270

Page 2

X. (Draft) A method for medical diagnosis of the gastrointestinal tract, the method comprising:

recording at a rate of two frames per second a series of images using a swallowable in-vivo device disposed within the gastrointestinal tract;

storing the series of images in a storage unit worn on a patient's body;

transferring the series of images to a workstation comprising a monitor;

displaying the series of images on the monitor as a moving image;

accepting a directional signal from a wheel of a mouse; and

altering the speed of display of the moving image according to the directional signal.

Respectfully submitted,

Calch Pollack
